Three Brooks
Nature Conservation Group

Discovering Moths in the Three Brooks Nature Reserve

Sat 2nd Sept 9.30 – 10.30
at the picnic bench by the lake

Come and discover the amazing and usually hidden world of moths this Saturday morning when we'll be joining moth expert Peter to identify the moth species caught using a light trap in the nature reserve and finding out about their fascinating lives

Why not join us afterwards with our conservation task for the day which will be scything the nearby slope (see website for details)
